Title: Jive psycho

Jive psycho, he don't care. if you stare, come near him, if you dare. he likes being the way he is. he's all show biz. he'll be the man, he'll hold your hand. taking all he can from your lunchbox. taking all he can, he's not even in a band. talking all he can from your lunchbox. adrenalin runs through his veins. spitting smoke like a crazy train. dancing like a jumping bean. make sure his shoes are clean. jive... jive psycho.
