

Written By Michael Fallon and Mark Niedzwiedz

I can be a mystery cover up my heart
Never show my emotion always keep you in the dark
I could find funny line impress you for a while
Hide the way that I'm feeling behind the smile
But I don't wanna lie be something that I'm not
And promise you the moon and stars but I swear to you my love

Chorus

Just as I am
I give myself to you
Just as I am
I'll never make it through
Cause you are the love I need
The life inside of me
So here I stand
Just as I am

I can try play it shy or charm you with my words
Let you see through the sweetheart show me it would never work
I could then not pretend and tell you how I feel
Cause its a chance worth taking with a love so real
Now I don't wanna lie be something that I'm not
And promise you the moon and stars but I swear to you my love

Repeat Chorus

And we'll be together for always
Cause true colours never lie
You're my everything
My life is in your hands

So take me Just as I am....oh I....
I give myself to you
And Just as I am....oh I....
I'll never make it through
Cause you are the love I need
The life inside of me
So here I stand
Just as I am.... yeah....

Give myself to my baby
Never make it through...
So here I stand Just as I am
