Title: Lady of my life

download from: <http://www.lyricsdisc.com>

You say lady of my life
Will you follow me
You say lady of my life
Take my hand

How i enjoy every minute
That i spend with you
How i enjoy every word
That you have written
I somehow seem to forget
Over and over
That you are there
But still

You say lady of my life
Will you follow me
You say lady of my life
Take my hand
You say lady of my life
You are everything
You say lady of my life
I love you

There have been days
There have been years
Someone says it always will
There have been moments
Even though that i'm still young
I've built walls with happiness
Built walls with pain
And with things beyond my understanding
But through all of this

You say...
