---

And the sparks are stacked  
For a southern girl  
She raised her popcorn bag  
To the blue suede world  
Should I take you back? Should I stay? Let's just wave  
Say goodbye  
(repeat 3x)  
Lipstick to the mud  
Chewing up old times  
I can't forget enough  
For the rest of my life  
Should I take you back? Should I stay? Lets just wave  
Say goodbye (repeat 3x)  
I walk in the space between the Jesus freaks and velvet geeks  
Around myself and back again  
Hoping to find myself but  
But all we are is all we'll ever be  
Say goodbye (repeat 3x)
