Title: Leave Me Alone

download from: <http://www.lyricsdisc.com>

i never understood in what it was you wanted from me
because you always took everything and changed it to what you wanted it to be.
maybe in time you'll find what you've always been looking for
because you always told me that i'd be the one and i would ignore
but don't follow (bother) me i just want to be free.
see! don't follow me just leave me alone.
