

(Pat Alger / Garth Brooks)

Don't be afraid to hold me tight...  
You know I won't break in two...  
What we're doing here tonight...  
Sure beats what we're going through...  
We both loved and lost before...  
You know the sadness it can bring...  
Tonight let's close the door...  
And hold onto the nearest thing...  
Let's keep hangin' on...  
So we won't fall apart...  
Let's make love tonight...  
Like we never had a broken heart...  
Don't be afraid to close your eyes...  
Pretend I'm someone that you love...  
And I won't have to tell you lies...  
'Cause it's not you I'm thinkin' of...  
Let's keep hangin' on...  
So we won't fall apart...  
Let's make love tonight...  
Like we never had a broken heart...  
Tonight we'll just pretend...  
We've been in love right from the start...  
Let's make love again...  
Like we never had a broken heart...  
Let's make love again...  
Like we never had a broken heart...  
Don't be afraid to close your eyes...
