

Endlessly  
Everytime I look into your eyes  
I see forever  
I don't know why  
But everytime we touch I feel alive  
There's nothing like it  
People say that love can't be that strong  
And you might just believe them  
Let me show you  
I can prove them wrong

Listen to my heart beat for you  
Telling you that I adore you  
If you wanna know how much I feel inside  
Listen to my heart come closer  
Let me wrap my arms around you  
There's nothing I can do  
I'm so in love with you  
Just listen to my heart

Oh my love  
You really need to know that you're my  
Once in a lifetime  
My oh my  
There's nothing gonna stop us 'cause we are  
A once in a lifetime

People say that love can't be that strong  
And you might just believe them  
But we can show them  
We can prove them wrong

I can't tell you what our future holds  
But as long as we're in love  
We're alive
