

(Isley Brothers, Christopher Jasper)

You never want to comfort me
Knowing what you really need
You always say you've had enough
You never want to give it up
chorus:
But everybody's got to move and
Everybody's got to groove
Everybody needs love sure enough
Everybody ought to live it up
Well what did I do that was wrong
I just want to have some fun
We've been holding back for too long
And I want to live, we've gotta live it up
I've got to ease your mind
I know I'll have a bit of luck
To make you have a good time
I've got to make you live it up
