

You put on a fight
blaming me
the feeling's gone
but I know you ain't right
I never felt it all alone
I hide away my fear
Hoping noone will come near
Cause they can't see me when I'm trying to be me

Living a lie
Tell me why I run and hide
Living a lie
You'll never know me deep inside

I put on a smile
And try to pretend that I'm alright
Cause it's only a while
'til I can run into the night
I hide away my fear
Hoping noone will come near
Cause they can't see me when I'm trying to be me

Living a lie
Tell me why I run and hide
Living a lie
You'll never know me deep inside

You put on a fight
Blaming me
The feeling's gone
But I know you ain't right
I never felt it all alone
I hide away my fear
Hoping noone will come near
Cause they can't see me when I'm trying to be me

Living a lie
Tell me why I run and hide
Living a lie
You'll never know me deep inside
Living a lie
Tell me why I run and hide
Living a lie
You'll never know me deep inside

I hide away my fear
Hoping noone will come near
Cause they can't see me when I'm trying to be me

Living a lie
Tell me why I run and hide
Living a lie
You'll never know me deep inside
Living a lie
Tell me why I run and hide
Living a lie
You'll never know me deep inside
