Title: Losing Face

download from: <http://www.lyricsdisc.com>

"we come from a place where the people are much more unfair"
"we come from a land where the laws are much more unfair".
that's what they said on tv, that's why they have no faces .
we could get away with murder, that's what they think.
"we come from a place where the people are much more unfair "
"we come from a land where the laws are much more unfair".
that's why they wait outside our houses, to murder us.
take them home, make them go.
