Title: Love is a torture

download from: <http://www.lyricsdisc.com>

What I want is not what I get,
What I get is not what I want,
It's just the same old shit on just a different day!

For me it was love at first feel,
For you it could never be real,
but that's just the way the story goes!

REF: Love, love, love is a torture.
Love, love, love is a torture.

For you it's just a game,
For me it's not the same,
It's a shame that love never went the way we plan it!

You're not the first, you're not the last,
But you're bumpin' in my head,
And you make me feel the world is round and not a plate!

REF: Love, love, love is a torture.....

Keep your kisses for my friends,
It's not more than shakin' hands,
It's just one more broken heart that's left behind!

For me it's just a game,
For you it's not the same,
Just one more easy game for me to play!

For you it was love at first feel,
For me it could never be real,
But that's just the way the story goes!

REF: Love, love, love is a torture.....
