

I never knew there was a love like this before
Never had someone to show me a love,
Love like this before

Now that we have come to be
A brand new light I can't see
Never thought you'd be a special part of me, no baby
The reasons are because of you I can go on and make it through
I can't even take my mind off loving you
And I wanna say

I never knew there was a love like this before
Never had someone to show me a love,
Love like this before

I know you can't see all the things you mean to me
I'm so amazed that you are mine, yeah yeah, yeah yeah
If we can work together, maybe this can last forever
This is something that I want to hold on to
So baby try to understand

Baby try to understand
I'll be crazy if you leave
But you complement my style
And I like the way you walk
And the sexy things you talk
You know just what you do to me, you see

I never knew there was a love like this before
Never had someone to show me a love,
Love like this before
I never knew there was a love like this before
Never had someone to show me a love,
Love like this before

Baby try to understand
I'll be crazy if you leave
But you complement my style
And I like the way you walk
And the sexy things you talk
You know just what you do to me, you see

Never knew a
Never knew a
Never knew a
Love like this before
Never knew a
Never knew a
Never knew a
Love like this before
