Title: Love Me And Make It All Better

---

Love me and make it all better come back and ease the pain  
Kiss away these burning tears say you love me again

I was wrong accusing you of unfaithfulness  
Cause you walked away and took all my happiness  
Love me and make it all better...

Well I'm a fool for thinking I could live without you  
Maybe my own weakness cause all my doubt in you  
Love me and make it all better...
