---

Magic is the way you turn to me  
Magic is the way you make me see  
What became of all our dreams and what will set us free  
Magic makes us up and magic lets us be

Don't you think it's magic  
What I'm trying to say is... dying to say is...  
I believe it's magic  
You and me  
Don't you know it's magic  
What I'm trying to say is... dying to say is...  
I am sure it's magic  
You and me

Magic are your eyes they're watching me  
Magic is the smile you're offering me  
I can see into your heart and our hearts will agree  
That magic makes us up and magic lets us be

Don't you think it's magic  
What I'm trying to say is... dying to say is...  
I believe it's magic  
You and me  
Don't you know it's magic  
What I'm trying to say is... dying to say is...  
I am sure it's magic  
You and me

I just wanna be with you  
Magic's coming over me  
It's only love that I'm giving to you  
You're my destiny

Don't you think it's magic  
What I'm trying to say is... dying to say is...  
I believe it's magic  
You and me  
Don't you know it's magic  
What I'm trying to say is... dying to say is...  
I am sure it's magic  
You and me
