Title: Memory

You're on your own this time
This time you're on your own
I can't believe I let you do this to me(us)
Taken advantage of forced "I love you"
And broken goodbyes
Love is such a game to you
Love is such a game
One more time for love
One more time for our memory.
One more time for love.
One more time for us.
Everything I touch falls to pieces
