I found my place in cyberspace.
It just might save the human race.
Communication is, not just the music biz. Not just the music biz.

I'm a multimedia man. I'm a multimedia man.
I'm a multimedia man. I'm a multimedia man.

Virtual Reality. Is made for you. Is made for me.
Just put your helmet on. And soon you will be gone. Soon you will be gone.

I'm a multimedia man. I'm a multimedia man.
I'm a multimedia man. I'm a multimedia man.

I'm a multimedia man. I know what I, I know what I, I know what I am.

I held a planet in my hand.
It's difficult to understand.
Across the universe.
It's a blessing. It's a blessing. It's a blessing.

I'm a multimedia man. I'm a multimedia man.
I'm a multimedia man. I'm a multimedia man.
I'm a multimedia man. I'm a multimedia man
