Title: My Children

download from: <http://www.lyricsdisc.com>

When the days passes days and nothing else
Still you can laugh at yourself
Oh, I want, I want

No-one ever comes round
To pick you up when you're feeling down
Oh I want, I want you to baby-sit my children
While I go out on the razzle
Save me, save me from my children
Save me, save me from my children

And you've seen things and they don't make sense
So don't even use your brain on them
Oh, I want, I want
The T.V. for guys like mine
Get me, get me out
Oh I want, I want you to baby-sit my children
While I go out on the razzle
Save me, save me from my children
Save me, save me from my children

You know it's true, you know I care about you
You know it's true, you know I care
You know it's true, you know I care about you
You know it's true
The world and you
You know it's true you know I care about you
You know it's true, you know I care
I, I care, oh I, I care
