Title: My personal star

download from: <http://www.lyricsdisc.com>

I know I'm not the Top Prize in the Lottery of Love,
But you're all I'm thinkin about
Without you every day, is getting senseless and so dark
Cause you're all I'm thinkin about

Matter of fact I know that what I do,
Let me be a clown and a damn fool
But this whole night through I am just thinking about you

You can say I'm addicted to you and I will always be
Cause you just mean the whole world to me
I Don't care 'bout the others, you are the only one I see
Cause you just mean the whole world to me

Matter of fact I know that what I do,
Let me be a clown and a damn fool
But this whole night through I am just thinking about you

With every night that passed, and every day
Come what may, I love you more and more
You can say you are just "My Personal Star"

You can't imagine that, my life only consists of you,
And I must hope you can say that too
At every star I look, I only see the face of you
And I must hope you can say that too

Matter of fact I know that what I do,
Let me be a clown and a damn fool
But this whole night through I am just thinking about you

About You
About You
I'm just thinking about you
