

Welcome to the minds of the morbid, death's plan revealed to all
a sanctuary secluded in darkness, a haven for demented lust.
Apprentice to the jackal, creature of darkened desires
demons haunting his mind, a sickness which grows from within...

Disgusting nest of fifth, breeding forth his disease
suffering through this life, his mind exists no more!

Sheltered from the light of day, he awaits the right
masturbating in the dark and praying to his god.
Vulture of inhuman needs, his hunger can no longer wait
fucking animals long dead, bodies encrusted in the street...

Disgusting nest of fifth, breeding forth this disease
suffering through this life, his mind exists no more!

Desecrate...mutilate...the beast of a lesser god
Copulate...with the dead...animal lying in the street
Sickness swells...within his soul...to consume the flattened beast
Antichrist...fuck you all...the fucked shall inherit the earth!

Decaying flesh of discarded fives
animal skulls without eyes
rancid stench it draws the flies
inhuman creep, a corpse his bride...

Living in a nest of fifth
breeding forth his disease
suffering through his mind
his life exists no more...
