Oh, yeah  
Oh...oh...oh...oh...oh...

Its two nights, seven days  
Seven nights for the very first time we met  
I felt scared, a first kiss  
And I remember it just like it was yesterday

And boy, you know that I care for you  
But weve got to slow it down

Cause once you fall out of love  
You dont wanna rush back into it  
And once you feel pain, darlin  
You dont wanna rush back into it once again  
Once again, once again

Hoo...ooh...yeah

You whisper things in my ear  
You know that every single woman in the world likes to  
hear  
Those three words, how I wish  
That you would be the man that I would spend my life  
with

And boy, as much as I care for you  
Weve got to slow it down, slow it down

Cause once you fall out of love  
You dont wanna rush back into it  
And once you feel pain, darlin  
You dont wanna rush back into it once again  
Once again, once again

Ive been in love a long time ago  
And Ive been through pain with this man from my past  
And you say that youll never hurt me, so you say  
Could this be a night of fear  
Or could this be a fantasy  
Please let me know , Lord

Oh, just once  
You gotta let me know, know  
One time, oh, one time  
Gotta let me know  
I glad you know  
Oh...oh...

Once you fall out of love  
You dont wanna rush back into it  
Once you feel pain  
You dont wanna rush back into it

Once you fall out of love  
You dont wanna rush back into it  
Once you feel pain  
You dont wanna rush back into it

Please let me know, Lord

Just once  
Ill sit beside you, sit beside you  
Once  
Cause I dont wanna be hurt once again
