Title: One Night Is Not Enough

download from: <http://www.lyricsdisc.com>

You left your door wide open
Couldn't help but walk in
It's the last place I should be
But I'm dying to see you

Have I held out for something?
That is never gonna happen

It's not me that you love

You woke up cold this morning
Shied away from my touch
I would never mean to hurt you
'Cause I love you so much

Was it always only one night
That you ever wanted from me
It's not me that you love
