---

Only you  
Can make me feel  
The world can disappear

Only you  
Make my heart heal  
And make it oh so clear

We can talk in circles  
Going round in a million ways  
And never understand

'Cause our words are whispers  
Hidden up in a distant haze  
Like diamonds next to sand

I don't even know  
What it's all about  
But i get all blissed out  
And then i know  
It's only you
