

(David Lee Murphy/Kim Tribble)

I just dropped five dollars in a juke box baby  
Ain't a soul on the old dance floor  
If you're gonna run with the big dogs hon  
You gotta get off the porch  
You can sit there all night uptight honey  
But a good time's something I know  
You gotta get the jump while the night is young  
And there's just one way to go

Out with a bang kickin' up dust  
Honey tonight I'm all wound up  
Over the fence and off of my chain  
Honey tonight I'm hurricane  
Out with a bang

You know some folks say I'll never see Heaven  
If I don't change the road I'm on  
But me I know just where I'm goin'  
I don't have to be told  
The say livin' fast just won't last  
But that don't bother me  
'Cause when it comes my time to go  
I won't go easily

Out with a bang kickin' up dust  
Honey tonight I'm all wound up  
Over the fence and off of my chain  
Honey tonight I'm hurricane  
Out with a bang

Everybody wants good time  
We all have the time  
So if you're comin' with me now darlin'  
You better hold on tight

Out with a bang kickin' up dust  
Honey tonight I'm all wound up  
Over the fence and off of my chain  
Honey tonight I'm hurricane  
Out with a bang
