

You squirt out red and turn so yellow
And then you made me kill my own
I'm not afraid (coming)
But I'm afraid
Blood in your eyes again
Bravery, the face of man
Blood on your mind again
Chivalry, the face of man
Blood in your lies again
Enemy, the face of man
Blood in your eyes, again, again, again
Is this the only path of glory?
If so then I won't go alone
Follow the trail (running)
Follow the trail
Blood in your eyes again
Bravery, the face of man
Blood on your mind again
Chivalry, the face of man
Blood in your lies again
Enemy, the face of man
Blood in your eyes, again, again, again
Again [several times]
I'm not afraid, but I'm afraid
I'm not afraid, but I'm afraid
