

Build it up again, just break it all down  
And see what's left  
Swinging at the fence, wonder which sand it will land on

Scratching the surface below, peel the rind  
Peel the rind  
There's plenty of layers to go  
Peel the rind, peel the rind  
Thick skin keeps me living  
Struggle alive and well  
Plenty of layers to go

Time is standing still, yet the years have all passed me by  
Looking for the ending, even though it just leaves me hanging

Scratching the surface below, peel the rind  
Peel the rind  
There's plenty of layers to go  
Peel the rind, peel the rind  
Thick skin keeps me living  
Struggle alive and well  
Plenty of layers to go

Don't look now, they're rebuilding machinery to eat their young

Scratching the surface below, peel the rind  
Peel the rind  
There's plenty of layers to go  
Peel the rind, peel the rind  
Thick skin keeps me living  
Struggle alive and well  
Plenty of layers to go

(Acoustic)

Scratching the surface below, peel the rind  
Peel the rind  
There's plenty of layers to go  
Peel the rind, peel the rind  
Scratching the surface below, peel the rind  
Peel the rind  
There's plenty of layers to go
