Title: Pervert

Don't you think it's time I let you know
Don't you think I should before you go
I'm not gonna let you get away
Cuz I want to fuck you night and day
I'm a pervert

I like to go out on dates
See a movie communicate
We'll go home and have some fun
I'll tell you sure you're the only one
Then when I leave your house I smell of sex

Then I know I'm a pervert because I like it
Then I know I'm perverted because I want it
Want it all of the time

Don't you sometimes wonder what I want
Don't you sometimes think I just want your cunt
I'd hate to think that romance is just a pose
But all I want to do is rip off your clothes
I'm a pervert

I like to hold you in my arms
You know I wouldn't do you harm
I never take advantage in my book that's a sin
But somehow I find myself caressing your skin
Then there's one word on my mind and that word is fuck
