Strange waves emanating from space
From the darkside of Jupiter an alien race
They said they came here to help
Looking like a japanese devo
They want to destroy us with monster zero
They're lying they're lying they're stealing our monsters
They say it's to fight evil king Gidora
They're hiding they're hiding under lake Myojin
Nick Adams knows they are up to no good
Mind controlled Radon and Gosira
Joining forces with king Gidora
Terrorizing towns and country sides
Those freaky little alien guys want you to die!
They are the strange men from cold dark Planet X
They are the strange men from cold dark Planet X
