

(Robert Clivilles)

I want to take you for a ride  
To this place called the pleasure zone, pleasure zone  
I want to take you for a ride  
I want to take you home, take you home

1..2..3

Let's do it!

I met you dancing at a club last night  
I saw you baby you looked so right  
If looks could tell you how I feel inside  
Then you'd know that you blew my mind

Oh baby you're one of a kind  
Do you think we could spend some time  
Oh honey you're looking so good  
Let's take a trip where no one should  
Let's go!

Here we go!  
I'd like to tell you but I'm not that type  
but if you ask me I will spend the night  
It's just a feeling that I get from you  
I wonder if you feel the same way too

Oh baby won't you come my way  
Let's get together so that we can play  
Come on baby give us a try  
Let's take a trip to the other side  
Come on let's go!

Oh baby you're one of a kind  
Do you think we could spend some time  
Oh honey you're looking so good  
Let's take a trip where no one should  
Come on let's go!
