

Artist: fergie

Title: Power of rage

download from: <http://www.lyricsdisc.com>

We see the right ways while others will never find
The true conception of power and why it will never die
In fight of words we are strong Institutions and legal crimes
If all you see is true
You must change your mind or the people will smash you
Nothing you see is true living inside a cage
Believe in your rage!
Remember the fear when the dictatorship reigned,
Restrict freedom, torture, too much pain
We can't forget but we don't learn
Education is just we need
If all you hear is true
You must change your mind
Or the people will smash you
These lies are very clear
Come out of your cage
Believe in your rage
