

Trust me, listen to me, don't think much of what I'm saying  
After all, I am your friend  
Let me be your guide and teach you the true way of things  
and a personal friend of God  
While we're talking and you're listening get your checkbook out  
Just sign on the bottom line please  
What does money really mean in the true scheme of things  
Y'all spell that with a y

The Lord is a close personal friend of mine  
We play cards every Tuesday night, he always wins of course  
But you know, I have witnessed a miracle  
I have seen a 900 foot Jesus in Tulsa, Oklahoma  
Although a guy named Sam thinks I was off my  
medication (Sam Kineson screams)  
But praise the Lord and send in your donations  
Even though I have sinned against you...  
... and never mind those dirty pictures that are circulating, with the little girl in the saddle

Watch my TV show, pay attention very close  
Send your checks to this address  
What will you give to me to guarantee your salvation  
Send in cash if you can  
Never mind about my twenty million salary  
Just doin' the Lord's work, ma'am  
I think God's got some very strange associates  
Don't mind me quivering under my desk
