

My name is Doyle  
And I'm a private eye, listen here you fool  
I don't give you no alibi  
I look at the door, I'm looking at you  
All my friends are private eyes, too  
You know you don't mess around with me

My name is Doyle, six foot three  
You know you don't mess around with me  
My name is Doyle, my name is Doyle  
Listen here you fool  
You don't mess around with me

My name is Doyle, I'm a hard nut  
You better get going or you're gonna get caught  
My name is Doyle, my name is Doyle  
And listen here you fool  
You don't mess around with me

You know, you know you don't mess around  
You know, you know you don't mess around  
You know, you know you don't mess around with me  
One more time  
You know, you know you don't mess around  
You know, you know you don't mess around  
You know, you know you don't mess around with me  
Yeah yeah yeah
