

All down the AM and all up the FM dail
Tired of hearin' songs about nothin at all
Beauty thats skin deep
Love that comes so cheap
THere sing so pretty bout nothin at all
All day long I hear the same 5 songs and the words go
Blah Blah Blah

CHORUS

The radio plays a whole lot of nothin
Wish that they'd play a song about somethin
Cuz all that you hear is so insincere
But its comin in crystal clear

Perfect production without innterruption
And everybody loves it because it sounds so sweet
They glorify sin
They sell sex
And then they all say Jesus in their thank you speech
God gave us music so we should use it
to sing with all our heart about the way you feel
Sing about love or whatever you think of
It doesnt really matter Just make it real
