---

Emotions changing from anger to despair  
Feelings filled with fear and emptiness

How can I live to see tomorrow?  
How will I face today?

Mentally - so weak but so strong  
Physically - so strong but so weak

Which is the best way to deal with the reality?  
How am I able to get over this?

The pain inside of me  
Outside of myself  
Forever stronger than ever  
Between all I have around
