---

When your mood turns blue  
It it not long way to get you  
Things in life went wrong  
You let me sleep all night long

When I remember the day  
I drank all my sadness away  
Now in my sweet soft smoke  
I am feeling the heart that you broke

In nights of deep despair  
There is a soft smell in the air  
While my life turns grey  
I am smoking my sadness away

Sativa  
You are fixing the hole in the sky  
Sativa  
You're filling the hole in my head
