

I feel it by my side  
It's been there for a while, now  
It could make things better

There's still something out there  
That we never talk about  
It could make my life easier  
Make my life easier

(Chorus)  
Will you offer,  
What I'm after?  
Hope you'll do it someday  
So we'll never go our separate ways

I don't want to make you cry  
Just make you wonder why  
You'll have to find the answer

I feel it oh so well  
So why is it hard for you to tell?  
You'd make my life easier  
Make my life easier

(Chorus)

Please find the time  
And make a decision  
Now is the right time  
To answer this question

(Chorus)

So we'll never go our separate ways  
Separate Ways Lyrics
