

The perfect spell, you could not resist,  
I cast it well, beguiled and bewitched,  
The evening fell and knocked like before,  
But this time Hell had come to your door,

Trick of the light, (Shape)  
Shapeshifter,  
Thief in the night, behind a lovers disguise,  
Dream (Hey)  
Shapeshifter,  
Tracing the face of a lie your eyes betray

My changling heart can mould you within  
This fire starts with vengeance and sin,  
I guide your hands, control every move  
I steal your love, I win and you loose

Trick of the light, (Shape)  
Shapeshifter,  
Thief in the night, behind a lovers disguise,  
Dream (Hey)  
Shapeshifter,  
Tracing the face of a lie your eyes  
betray
