---

I've been watching the clock all night, i'm done..  
i know the night is young.  
You've been talking the ears clean off my head..  
Therefore, i haven't heard a word you've said.  
Anyway.. we fall away..  
Your tongue is bleeding from all your sharp words.  
From all your sharp words.  
Could you hit me where i am?  
And would you hit me now where i stand?  
I've been listening you know that..  
You know that.  
Obviously you know that.  
Anyway.. we fall away..  
Your tongue is bleeding now.  
Anyway.. it's the way.. i am leaving now.  
I can't breathe.  
Anyway.. it's the way..  
My throat is bleeding now.  
Anyway.. it's the way..  
I am leaving now.  
I can't breathe.
