Title: Simple kind of love

download from: <http://www.lyricsdisc.com>

Leaning on a tree trunk
Thinking all the same junk
Fallin in and out of a dream
Back and forth i'm swaying
I'm contemplating staying
Laying and decaying when i know i must leave Where do i am when i shoot the breeze
How do i call myself at times like these
I need a simple kind of lovely
The thought is just a novelty
You can spend the whole time
Dangling from a grape vine
Standin underneath you when they cut you free What about when the sun leaves and
What about all those bad dreams
Who will walk you back into reality
I wish this could be like this everyday
But i know that i could never live this way
Was just a simple kind of lovely
The memories will be okay
I wish things could be like this everyday
But i know i could never live this way
Was just a simple kind of lovely and the memories will be okay
Was just a simple kind of lovely and the memories will be okay
