Her chant, a hot desire  
She adds fuel to the fire  
By now I have no self possession

Outside a pure attraction  
Inside a cruel intention  
She's worse than anybody else

"Come to me"  
I'm drowning, I'm drowning  
"Follow me"  
I'm drowning, I'm drowning

Hearing tiny voices inside my head  
Confusing words that I can't understand  
"I'll never let you go  
I'll never let you go away from me"  
"I'll never let you go  
I'll never let you go away  
from these hypnotic chains"

Just like my pretty siren  
You tease me with your lips  
Your tongue repeats her lullaby

"Come to me"  
I'm drowning, I'm drowning  
"Follow me"  
I'm drowning, I'm drowning

Hearing tiny voices inside my head  
Confusing words that I can't understand  
"I'll never let you go  
I'll never let you go away from me"  
"I'll never let you go  
I'll never let you go away  
from these hypnotic chains"

Maybe you are stronger than me now  
But the fairy tale you wrote is fading out

You make me so angry now!  
( I'm getting off my chest )  
You make me so angry now!  
( I'm getting off my chest )

Shut up!
