

She's in control now  
It's gonna make her happy any day now  
Can you see, she's  
Getting smaller every day now  
Her body seems to melt away  
Smaller, every day now.

What my sister's dying to be

I don't think I know her,  
She's turning to stone but she don't know it  
She can't see, she's  
Getting smaller every year now  
Her body seems to disappear  
Smaller, every year now.
