

Well, I tried to make it someday,
But I got so demdepressed,
That I set my side on Monday,
And I got myself embarrassed.
I am waiting for the author,
But I do agree those times.
When a woman, sure, can be your feminin.
Well, the people thinking 'bout, too,
Sister Golden Hair surprised.
And I just can't live without you,
Come to see it in my eyes.
I will one more go responding,
I've been, too, to hard to find.
But it doesn't mean, you're waiting on my mind.

Sister, sister, sister Golden Hair...

Well, the people thinking 'bout, too,
Sister Golden Hair surprised.
And I just can't live without you,
Come to see it in my eyes.
I will one more go responding,
I've been, too, to hard to find.
But it doesn't mean, you're waiting on my mind.
Will you make me in the middle?
Will you make me in the air?
Will you love me just a little?
Just to know to show you care.
Well, I try to thinking, don't my scene,
I just can making.
Well, I try to thinking, don't my scene,
I just can making.

Sister, sister, sister Golden Hair...

I will one more go responding,
I've been, too, to hard to find.
But it doesn't mean, you're waiting on my mind.
