---

You taught me how to love you, now you expect me to forget you after all the promises that we made so i tell my heart it's over, this hurt cant last forever

Just until the heartache fades away you've got

A slo-w burning memory maybe ill get over you in time slo-w burning memory keeps on burning a hole in my mind the day you said goodbye, i began to realize it would take a while

Slow burning memory keeps on burning a hole in my mind
