(Smokey blue eyes)

I was sittin' alone in a bar yesterday
Just passin' the time when I heard a sweet voice say
How's about one far the road you and I
Then I turned and saw an angel with smokey blue eyes
We talked of the weather and things that we'd done
We've laughed at each heartache like two kids a having fun
I was in heaven I won't try to deny
When I danced with an angel with smokey blue eyes (smokey blue eyes)
The jukebox was playing when I heard my heart sing
For on her third finger I placed my class ring
Well I'm not pretending oh I'll love her till I die
As I turned and kissed the angel with smokey blue eyes
Smokey blue eyes smokey blue eyes I fell so in love with smokey blue eyes
