

(with Thomas Dybdahl)

Cool and soothing  
The wind is in your hair  
Not a single care  
Cigarettes and beer  
The speed of moving  
Feels like you can fly  
Feeling kinda high  
Beneath the big blue sky

You let go and landed on your feet  
And it felt so sweet

There's nothing more that can hold you back now  
You always had what you finally found  
You're on your way  
Your fears are behind you  
You're on your way  
Your fears are behind you

Morning glory  
Shines upon your face  
Not a single trace  
Of years all gone to waste

Here's a story full of hope and light  
You didn't win without a fight  
Now here's to your delight

You let go and landed on your feet  
And it felt so sweet

There's nothing more that can hold you back now  
You always had what you finally found  
You're on your way  
Your fears are behind you  
You're on your way  
Your fears are behind you

You let go and landed on your feet  
And it felt so sweet
