

Walked out the door  
...can't think no more  
Noone's never ever been this good to me  
I couldn't see  
...I'll be good to you

So tell me why is it happening to me  
I couldn't see what your loving means to me  
And tell me why do I feel old-fashioned Blue  
...I want you through & through

So tell her I love her  
I could fly  
There's noone like here  
I have seen  
Of all the faces we're inbetween

So night after night  
I'll stand down by your side  
and I'm saving all my loving for your love

So tell me why is it happening to me  
I couldn't see what your loving means to me  
And tell me why do I feel old-fashioned Blue  
...I want you through & through

So tell her I love her  
I could fly  
There's noone like here  
I have seen  
Of all the faces we're inbetween

And night after night  
I'll stand by your side  
So I'm saving all my loving for your love

Some things never, never last to see  
Some things never, never last to feel

So night after night  
I'll lay down by your side  
And I'm saving all my loving for your love

So I'm saving all my loving for your love
