

precious somebody wants ya

i think i met you at a party and left with an impression  
like foxy i want you  
i wonder what her mouth tastes like  
i wonder what she look like in the morning  
what you look in in the morning child

somebody wants ya  
somebody needs ya  
together we can take it home

your lips girl they kill me  
confuse me and fulfill me  
your bodys like a road  
come slip that knot around my throat  
baby watch me swoon  
baby and do my thing

come on clap your hands little momma  
and do what your daddy said  
saw you shake your ass on the corner now get it on back to bed.  
saw you shake your ass on the corner now get it on back to bed.  
saw you shake your ass on the corner now get it on back to bed.

somebody wants ya  
somebody needs ya  
together we can take it home

come on shake your ass on the corner  
now get it on back to bed  
ill take you home
