

(Tom Shapiro/Terri Clark/Chris Waters)

Somebody's restless  
She feels second best  
And the girl across town  
Is thinking about a permanent change  
And the lady living next door  
Won't take it anymore  
There's a whole lot of love  
Gone wrong going 'round these days

Must be something in the water  
Something in the air  
'Cause every girl I talk to  
Is going through the same thing  
I'm going through here  
Must be something in the teardrops  
They've been falling too long  
Must be something in the water  
Making me wanna move on

I understand the heartache  
It leaves such a bitter taste  
Makes you go crazy  
Thirsty for something else  
The way that it used to be  
Now ain't enough for me  
'Cause the love I ain't getting  
Is like drinking from a dry well

Must be something in the water  
Something in the air  
'Cause every girl I talk to  
Is going through the same thing  
I'm going through here  
Must be something in the teardrops  
They've been falling too long  
Must be something in the water  
Making me wanna move on

Must be something in the water  
Something in the air  
'Cause every girl I talk to  
Is going through the same thing  
I'm going through here  
Must be something in the teardrops  
They've been falling too long  
Must be something in the water  
Making me wanna move on
