Title: Somewhere Else To Be

download from: <http://www.lyricsdisc.com>

Every time that I cry out
No one ever comes to me
Every time that I reach out
No one ever rescues me

I wish I could hide from everyone
Is there somewhere else to be
Is there somewhere else to be
Take me in
I want out
That's all I need

I wish I could run from everything
Is there somewhere else to be
Is there somewhere else to be
Take me in
I want out
That's all I need
