Title: Somewhere In The City

download from: <http://www.lyricsdisc.com>

Sometimes it's hard to see good times ahead for you
With all this hate and greed getting in the way
You should come ride with me
I know a place for free
We can run and hide
Through the day and night
New York or LA
Downtown's the place for hearts like ours
Together we're free
We'll run you and me through the city tonight
Somewhere in the city tonight

[Chorus:]
Somewhere in the city tonight
We'll hide on
We'll be alright

Let's run the streets near 25th
Watch the fog roll over that golden gate
There's time tonight and nothing we can lose
New York or LA
Downtown's the place for hearts like ours
Together we're free
We'll run you and me through the city tonight
Somewhere in the city tonight

[Chorus]
