Title: Song for Shellie

download from: <http://www.lyricsdisc.com>

There's something in the way
Your eyes stare through mine
I said these things will stay this way
But you put your heart far behind
We speak thousand words, pictures in my mind
Empty words and empty promises
Please don't say good bye

So come back to the days
We spent time for a while
We spent some time away
As birds pass us by
And if we don't ever make it
Together in our lives
Just you know I loved you all along
